

The Enterprising NORTH

OVER 50 YEARS

The North is home to countless tales of perseverance and survival — and these stories include its businesses and its resilient businesspeople. Northern entrepreneurs are a hardy bunch. They're able to ride out the inevitable booms and busts and provide reliable services across the North. They are the people who shaped our future — one satisfied customer at a time. We salute our long-time Northern businesses. May they continue to build Canada's far North.
