

2017

UP HERE MAGAZINE: **OCTOBER/NOVEMBER**

THE ARTS ISSUE

They've walked the red carpets of Cannes, graced southern fashion runways and been centre-stage at the Juno awards. Northern artists are taking over. Our October/November issue details the year that was in music, film, fashion, art and literature and introduces you to the artists who will be household names very soon.

IF YOU'RE AN ARTIST, AGENT, GALLERY, PUBLISHER OR PRODUCER, there's no better chance to connect with southern and northern art-lovers than through the pages of the arts edition of Up Here magazine. Are you looking to promote artistic residencies, grants, scholarships or training programs? Tell our readers how to apply with an advertisement or by developing sponsored content for the pages of the magazine.

PLUS: We look at the health of the Inuit art market. And we'll also examine the strengths—and weaknesses—of each territory's arts sectors.

MINING BONUS: You can also expect Up Here's annual mining round up of who's growing and who's slowing. Plus, we explain how diamonds get their value.

ADDED DISTRIBUTION: **Yukon Geoscience Forum** - November 15-17
NWT Geoscience Forum - November 14-16 • **Art Toronto** - October 27-30
